

HYDROFUSION

FLUSH-MOUNT DRAIN WITH A FLOW RATING OF UP TO 210 GPM

*Available in white or gray, with or without hydrostatic valve

UNBLOCKABLE POWER | EFFORTLESS FUNCTIONALITY

Blue Square's innovative HydroFusion Drain delivers optimal circulation, capturing more debris and leaving behind a clean and hassle-free pool.

- **Enhanced Debris Capture:** Optimized channel design directs more debris towards the drain center
- **Highly Compatible:** Flexible with various pool setups; compatible with 2.5" and 3.0" plumbing
- **Long Lasting Performance:** Stronger solvent welds to PVC plumbing systems
- **Flush Design:** No more stubbing toes on protruding drains, while also preventing robotic cleaners from getting stuck
- **Fully VGBA Compliant:** The single source suction drain exceeds safety requirements
- **Widened Channel Openings:** Removes large leaves and debris thanks to the optimal design
