HOT TUB AND SPA ESSENTIALS

POOL CLEANERS

Boreal Manual Spa Vacuum K738CBX/SPA

The **Boreal** manual spa vacuum is ideal for vacuuming spas.

The manually-activated cleaner vacuums up debris into an easily-removable filter cage.

The transparent body around the filter cage allows one to see when it is full. It is also practical for small soft-wall above-ground pools that are not equipped with any filtration system, or to remove small debris from traditional pools.

- Hand-operated, pump-action vacuum does not require batteries or connection to a filter system.
- Includes an add-on brush nozzle, leaf skimmer, and practical wall-mounting bracket for storage.
- High-quality stainless steel filter cage.
- Packed in an attractive and compact color box.

HANDHELD HYDRAULIC **CLEANERS**

Low-flow Filtration System

SKOOBA was designed to easily and efficiently clean small to medium above-ground pools by connecting it to the water outlet to vacuum underwater debris. It is a handheld solution that can vacuum sand, dirt, and leaves from pool bottoms. It is easy to assemble without the need for any tools. Simply attach the cleaner to the included pole and hose, connect the hose to the pool, and start vacuuming!

Ideal for Small Soft Wall Pools

SKOOBA Pool Vacuum Kit

Complete kit including vacuum head, hose, and pole.

K535CBX/18

Features:

- Connects to water outlet and vacuums underwater debris.
- Internal filter bag collects debris such as dirt, leaves and sand before it reaches the pool filter to avoid clogging of filter.
- Convenient twist-and-lock transparent top head to easily remove debris.
- Lightweight aluminum handle enables cleaning with minimum effort.
- Easy to assemble.
- Recommended for: small-sized pools 2.4m - 4.5m / 8ft - 15ft
- Min. Flow Rate: 530gal/h / 2m³/h
- Min. Pump Power: 45W
- Max. Flow Rate: 1,300gal/h / 5m³/h
- Max. Pump Power: 0.5HP / 375W

Included:

- 1 cleaner
- 1 filter bag
- 1 flat nozzle with slide-in brush
- 5m / 16ft hose
- A 4-section aluminum pole - extended length 178cm / 5.8ft
- Connectors compatible with most leading pool brands on the market

K535CBX/18/EU - For Europe

K535CBX/18/US - For North America

European patent no. 002092155-0001

HANDHELD HYDRAULIC **CLEANERS**

Low-flow Filtration System

Ideal for Small to Medium Soft Wall Pools

SKOOBAMAX Pool Vacuum System

Complete kit including vacuum head, hose and pole.

K563CBX/18

Features:

- Connects to water outlet and filters underwater debris.
- Internal filter bag collects debris such as dirt, leaves, and sand before it reaches the pool filter to avoid clogging of filter.
- Convenient twist-and-lock transparent top head to easily remove debris.
- Lightweight aluminum handle enables cleaning with minimum effort.
- Easy to assemble.
- Wide nozzle with rotational ball wheels for easy gliding and clip-on brushes for removal of dirt from pool bottom.
- Recommended for: medium-sized pools 2.4m - 5.5m / 8ft - 18ft
- Min. flow rate: 530gal/h / 2m³/h
- Min. pump power: 45W
- Max. flow rate: 1,300gal/h / 5m³/h
- Max. pump power: 0.5HP / 375W

Included:

- Connectors compatible with most leading pool brands on the market
- 6m / 19.7ft hose
- 5-section aluminum pole - extended length 220cm / 7.2ft
- 1 flat nozzle with slide-in brush to clean corners
- 1 pivoting head to clean surfaces

European patent no. 002092155-0001

connectors for most pool brands included

HANDHELD HYDRAULIC **CLEANERS**

Low-flow Filtration System

The **V-Trap** is a unique pool vacuum system designed specifically for cleaning medium-sized above-ground pools, round or rectangular. Debris is collected by a pre-filter cage, visible through the transparent body of the **V-Trap** and does not send it to the pool filter. This avoids clogging of small cartridge filters, and reduces the need for backwash of sand filters. Its weighted head and spring-loaded handle maintain good surface contact, while its swivel hose connection ensures maneuverability into any corner of the pool. The underside spiral ridges create a vortex to increase vacuuming efficiency while underside brushes remove dirt from the pool floor.

OPENING SYSTEM

+

SIDE BRUSHES

*ENABLE BRUSHING INTO
CORNERS & EDGES*

V-Trap Head Features:

- The weighted head and spring-loaded handle help maintain good surface contact.
- Swivel hose cuff avoids twisting of hose.
- Underside spiral ridges create a vortex increasing vacuuming efficiency.
- Internal pre-filter catches debris before it reaches your cartridge filter.
- Transparent head to see when pre-filter cage is full.

HANDHELD HYDRAULIC **CLEANERS**

Low-flow Filtration System

V-Trap Pool Vacuum System

K816CBX/20

Included:

- V-Trap vacuum head
 - 6m / 20ft of Dia. 32mm / 1¼in flexible vacuum hose
 - Lightweight aluminum handle in 6 sections measuring 240cm / 8ft when fully assembled
 - Includes connectors compatible with most leading soft-wall pool brands on the market
-
- Recommended for: medium above-ground pools 4.5m - 5.5m / 15ft - 18ft
 - Min. flow rate: 800gal/h / 3m3/h
 - Min. pump power: 85W

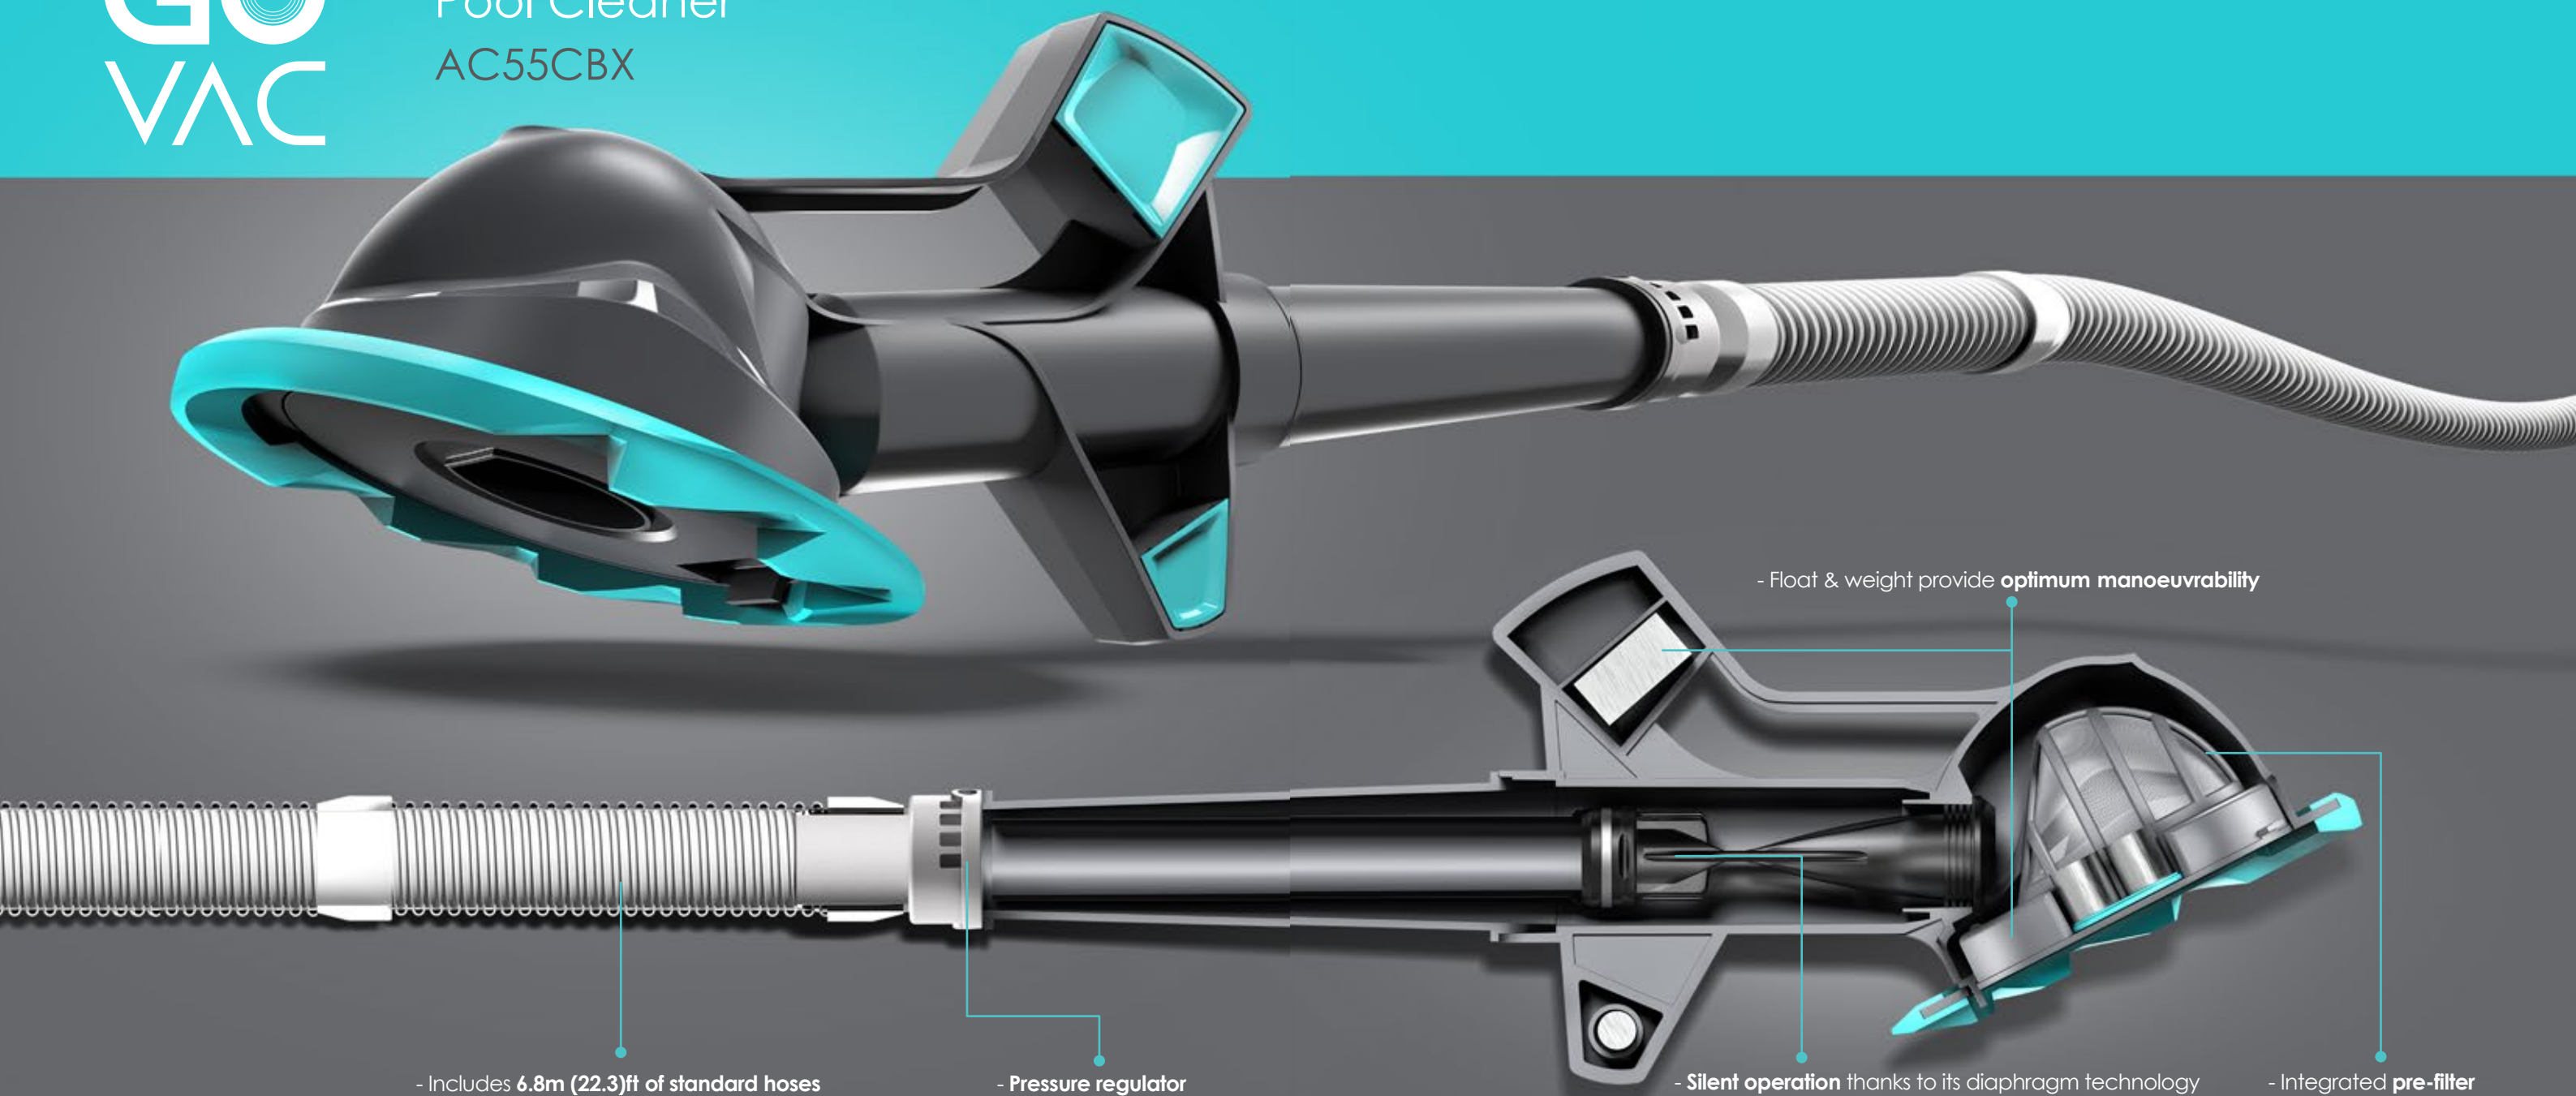

Automatic Cleaners

GO
VAC

Automatic Hydraulic Pool Cleaner AC55CBX

- Includes **6.8m (22.3)ft** of standard hoses

- Pressure regulator

- Float & weight provide **optimum manoeuvrability**

- Silent operation thanks to its diaphragm technology

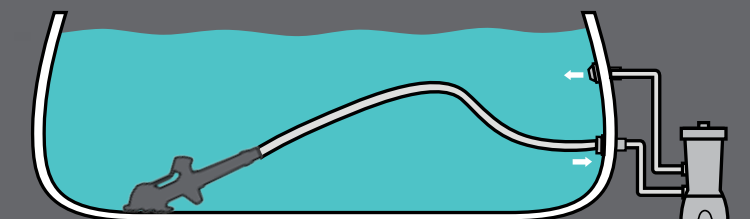

- Integrated **pre-filter**

Pre-filter avoids clogging
of pump filter

Easy to install,
no tools needed

- Recommended for cleaning soft wall pools up to 6m / 20ft
- Powered by your pool's filtration system.
- Requires a pump of minimum 32W (and minimum system flow rate of 800gal/h or 3.03m³/h) to function properly

PACKAGING

Size :

W76.5cm x D20.5cm x H22.5cm
30in x 8in x 8¾in

AUTOMATIC HYDRAULIC **CLEANERS**

Filtration Systems (Min. 0.75HP)

Like the **Dipper**, the **Dipper Max** automatic pool cleaner is reliable and silent due to its diaphragm technology. In addition, it includes extra hose length plus a deflector ring to ensure smooth navigation around pool steps and more complex pool shapes. The **Dipper Max** is capable of climbing walls and vacuuming both the pool floor and walls.

DipperMax

K915CBX

Features:

- Membrane technology ensures silent operation with optimum cleaning efficiency.
- Lightweight design enables it to clean rapidly across the pool floor.
- The membrane system ensures a smooth passage of debris.
- Pressure regulator to adjust to ideal suction.
- Low maintenance required due to just one moving part.
- Large circular deflector to navigate around steps, ladders, and corners even in the most complex pools.
- Climbs walls.
- Recommended for: in-ground & above-ground pools up to 7.3m / 24ft (excluding soft wall pools)
- Min. system flow rate: 1,600gal/h / 6m³/h
- Min. pump power: 0.75HP / 560W
- Also suitable for pools with an inclined bottom

Accessories:

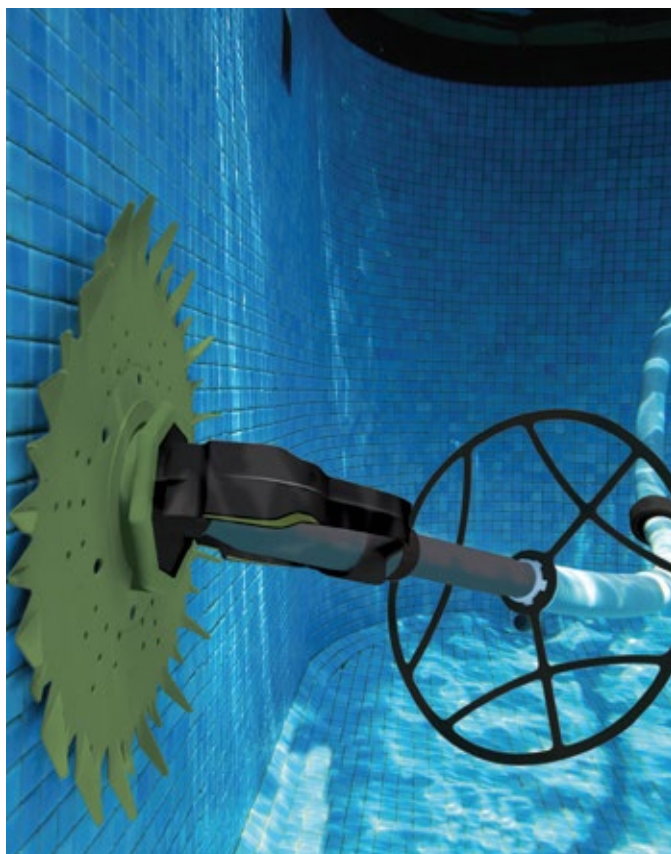

- Includes 9.75m / 32ft of standard hoses
- Compatible with leaf canister K918CBX (not included)

CLEANS POOL
BOTTOM & WALLS

AUTOMATIC HYDRAULIC *CLEANERS ACCESSORIES*

Leaf Canister

Leaf Canister

K918CBX

Features:

- Connects between standard hoses of any automatic pool cleaner.
- Traps leaves, twigs, hair, pebbles, etc. before they get to the pool pump or filter.
- Reduces the need to clean the strainer basket, the skimmer, filter and pump.
- Prolongs the life of the pump and motor by preventing clogging.
- Clear plastic container allows user to see if emptying is required without having to open the canister.
- Handle makes leaf canister easier to retrieve from the water.
- Lock system is sturdy, watertight, and easy to open.
- Recommended for high-powered pumps only.
- Includes connectors for use with hose male cuff of inner Ø37mm and hose female cuff of inner Ø41mm.
