Chlorination - In-line & Off-line Dispensers

KLOR-IN in-line chemical feeder is designed specifically for use with soft wall above ground pools.

It offers a range of benefits to soft-wall pool owners:

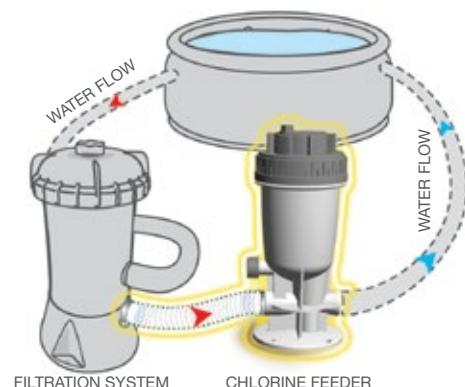

Convenience: less frequent refilling of chlorine than floating dispensers.

Safety: reduced risk of children coming into contact with chlorine than floating dispensers.

Efficiency: A more even distribution of chlorine throughout the pool than with a floating dispenser.

Economy: A fraction of the cost compared to salt chlorine generators.

KLOR-IN in-line chemical feeder can be easily installed within minutes between the filtration system and water-return on soft wall pools using 32mm / 1¼ in connector hoses.

Klor-In Chemical Feeder (32mm / 1¼in connections) **K534CBX**

Holds up to 4 tablets of 75mm / 3in diameter or 1kg / 2.3lb.

Compatible with 32mm / 1¼in hose connections.

Recommended for pools up to 4.5m / 15ft in diameter.

Finger release catch provides extra security.

9lb / 4kg Off-line Chemical Feeder **K568BX**

Ideal for installation on pools with rigid PVC plumbing.

Holds up to 9lb / 4kg of chlorine tablets.

Finger release catch provides extra security.

9lb / 4kg In-line Chemical Feeder **K567BX/HC**

Ideal for above-ground pools with flexible filter hose connections.

Includes fittings for connection to 32 / 38mm (1¼ / 1½in) filter hose.
