Therm'O™

Therm'O Wireless Pool Thermometer K617CBX

Check the pool water temperature without going outdoors!

Base station can be mounted on a wall inside your home, or placed on a countertop.

Sensor floats in pool to measure water temperature and transmits to base station.

Base station displays indoor temperature & humidity, outdoor pool water temperature & temperature trend, time, and moon phase.

Includes an alarm and max/min temperature-reminding function.

Sensor projects up to 30m in open field.

Displays temperatures in either Celsius or Fahrenheit.

Base station powered by 2 x 1.5V AA batteries (not included); sensor powered by 2 x 1.5V AAA batteries.
