- Scuppers
- Fire Torches
- Fire Towers
- Fire Pit Accessories
- Custom Fire & Water Features.

MADE IN THE USA

By manufacturing everything in Southern California, T.O.P is able to continuously improve our products, oversee all quality control and keep our standards high.

CUSTOMS PROJECTS ARE OUR SPECIALTY

T.O.P owns their manufacturing facilities, giving full reign to create custom products for your project.

SHORTER LEAD TIMES

T.O.P doesn't have to wait for our product to ship from overseas. We don't source our components from different suppliers, We make our products in-house and keep lead times short.

EXCLUSIVE GFRG CONCRETE: LIGHTER & STRONGER

T.O.P uses an exclusive mix of GFRG concrete that has been tested and developed over many years. We only use glass fiber reinforced concrete in our products to ensure you get a stronger and longer lasting product.

COLOR THRU CONCRETE

T.O.P concrete is dyed within and finished with a colored sealer.

Competitors use white concrete and paint over it. In the case that you chip your unit, it will be a lot more discreet.

FULLY ASSEMBLED AND READY TO INSTALL

T.O.P products come fully assembled and ready for installation. Simply supply the necessary gas, water, or electrical lines to the feature. Competitors send you boxes of components

HEAT TESTED

When concrete heats up, it expands and can crack. Our concrete is able to adjust to the constant temperature change cycles and resists cracking.

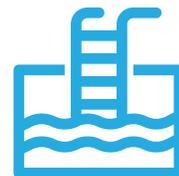

EXCLUSIVE ELECTRONIC IGNITION SYSTEMS

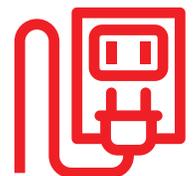

Our smart weather electronic ignition system is made in house and is one of the most compact and easy to use system on the market.

Compatible with
Smart Home &
Pool Controllers

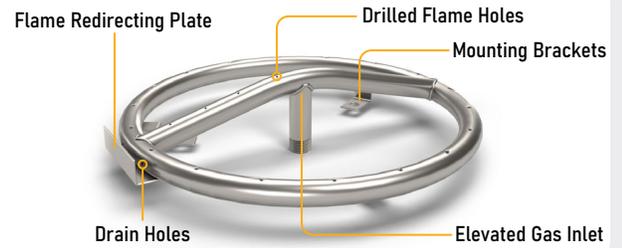

12V Ignition
Pool & Spa Ready

110V Ignition
Plug & Play Ready

HIGH GRADE BURNERS

T.O.P uses the best, 316 stainless steel thick wall tubing. Our burners will never bend or dent like others on the market. We drill each hole—others punch them—to give you a fuller, warmer flame that will last for years.

PATENTED BULLET BURNERS

Made with machined brass components, our bullet burner is one of the best burners on the market. Its patented bullet tips create taller flame while consuming the less gas than a conventional burner.

LIFETIME WARRANTY ON ALL OF OUR BURNERS, STANDARD AND BULLET BURNERS

T.O.P's burners, including the burners in fire pits, fire bowls, pan & burner kits and other finished units, are protected by T.O.P's lifetime warranty against defects in materials and craftsmanship.

EXCLUSIVE DESIGNS

We offer designs that no one else offers, helping you create an even more unique outdoor experience

MOUNTING BRACKETS

All bowls include a mounting bracket to secure the bowl, preventing it from moving or tipping over. Using adhesives prevents any ventilation, that's why our bracket also lifts the bowl to provide the necessary ventilation.

OVER TWO DOZEN DIFFERENT FINISH OPTIONS

We offer various material options & even more color finishes. From smooth, rustic and metallic concrete, powder coat, stainless steel, copper, corten steel, we make sure we can accommodate everyone's style.

TESTED & CERTIFIED

Our pan & burner kit inserts and our various ignition systems have been tested and certified to ensure you receive only high quality products.

FULLY SERVICEABLE UNITS

All of our units are serviceable, even our electronic ignition systems. We offer replacement components to make field repairs easy, to get the unit up & running quickly.

CUSTOMER SUPPORT & TROUBLESHOOTING

We are always here to help and only a phone call away! If you're having trouble installing any of our systems, misplaced instructions or need help assessing a problem, give us a call!

SKU CONFIGURATOR AND REQUEST FOR QUOTE FORM

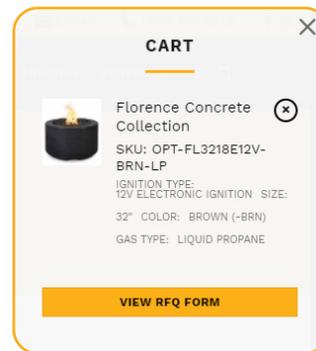

With so many options, our product SKU generator makes it easy to find the product you need with its variations and eliminates the need to dig through spread sheets. Below that, our Request For Quote Form (RFQ) allows you to build a list of items and send an inquiry with ease.

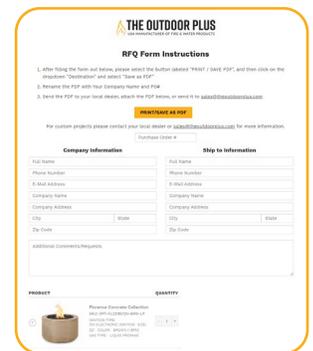

1. Find your product and select your color, gas, ignition option and click "Add To RFQ Form". Add as many products as you'd like

2. Go to your bag in the top right corner

3. Here you will see all the products you have added. Click "View RFQ Form"

4. Now the form will appear. Simply fill in the info and print or save as PDF. Send this to Us, your dealer or distributor

YOUTUBE CHANNEL

On our channel, you can see installation videos, our products being put to the toughest tests, and lifestyle videos for a better look into our products.
